

Olha Lobachova

lobachovao@gmail.com · lobachovao.github.io/olya.lobachova · Kyiv, Ukraine · Open to remote

5+ years across UX design, SaaS product operations, and digital marketing. I turn user friction into product decisions, run cross-functional delivery, and execute campaigns end-to-end — without losing quality along the way.

Experience

CUSTOMER SUCCESS & PRODUCT OPERATIONS MANAGER Execue · 2025–2026

- 1/ Onboarded and supported 30+ B2B client accounts;
- 2/ Surfaced recurring friction patterns and translated them into a structured product backlog for the founding team
- 3/ Built a scorecard framework that improved outreach campaign quality across 50+ campaigns and 5,000+ leads — reply rate grew from ~1% to 4–5%
- 4/ Documented 15+ product bugs and ux gaps prioritised by user impact;
- 5/ Represented the product at Web summit

UI/UX DESIGNER & DIGITAL PRODUCT CONTRIBUTOR Premier Food · 2025–2026

- 1/ Delivered UI for 5+ product launches across web and mobile;
- 2/ Built prototypes that reduced stakeholder feedback cycles before dev handoff
- 3/ Translated campaign briefs into landing pages and banner creatives for google ads and facebook including a/b variants
- 4/ Managed email campaign workflows in esputnik across 3+ client accounts simultaneously

WEB & CAMPAIGN DESIGNER Avon Cosmetics Ukraine · 2020–2025

- 1/ Owned checkout improvement initiative that doubled conversion from 0.7% to 1.4% — coordinating an offshore backend team after the primary developer was mobilised
- 2/ Designed and maintained promotional landing pages and homepage sections aligned with avon's global brand standards
- 3/ Produced digital assets across web, email, and social for seasonal campaigns and product launches

Skills

- Product:** user research · feedback synthesis · roadmap input · product documentation · a/b testing
- Delivery:** cross-functional coordination · sprint planning · backlog prioritisation · stakeholder communication
- Marketing:** campaign execution · brand consistency · content strategy · omnichannel asset production
- Design:** ui/ux · wireframing · prototyping · html/css basics · email design
- Tools:** figma · jira · notion · hotjar · esputnik · instantly · heyreach · google analytics · n8n
- AI:** prompt engineering · ai-assisted workflows · icp logic design

Case studies

- EXECUE · SAAS** — solving the onboarding gap **50+** outbound campaigns across **5,000+** decision-makers were getting almost no replies. I built a diagnostic scorecard, restructured campaign timing, rewrote copy to a **7-sec scan / 12-sec** read format, and aligned value propositions by industry. Result: reply rate **grew from ~1% to 4–5%, 2 inbound** discovery calls generated.
- PREMIER FOOD · DIGITAL** — European e-commerce website led end-to-end launch of a european e-commerce site with a cross-functional team of 5 and no dedicated PM. Managed mid-project scope changes by negotiating a phased approach — partial changes now, rest in the next release. Result: **delivered on time, within budget, 0 critical bugs at launch.** Client continued working with the team after release.
- AVON COSMETICS UKRAINE · E-COMMERCE** — checkout conversion: 0.7% → **1.4%** my.avon.ua lacked Nova Poshta parcel lockers and cash-on-delivery — standard expectations for ukrainian shoppers. With the primary developer mobilised. I coordinated an offshore backend team in india, wrote a detailed incident brief, and co-led the deployment. Result: **conversion doubled in month one, 50** locker orders placed, estimated **15–20% revenue** uplift.

Education

Kyiv National University Of Trade And Economics · Journalism
